

Glued Presentation Folder: Style A4-G7

Product Template

This 6-panel glued presentation folder is sized to fit A4 sheets. It has a single glued pocket which will hold approximately 20 sheets of standard 80gsm paper, together with a fold-out flap on the inside cover. This allows a much greater amount of information to be presented than with a standard presentation folder. If you need it to hold a higher quantity of sheets consider using one of our capacity folders instead. The folder template is available to download in a range of formats to suit most artwork requirements.
